## Summary

- Looking for a student position in Software, where I can bring my personality and my technical capabilities (3-4 days a week).
- Ability to work as a team member as well as independently.
- Passionate about tackling challenges and finding solutions.

## Education

- **Software engineering with specialization in cyber**, SCE - Sami Shamoon College of Engineering, 88 GPA [2020 – Present]
  - **Aquarium java project** - Aquarium simulator with a Gui using multi-threading and design patterns.
  - **Travel-Agency project** - booking website for a local Travel Agency using React and Firebase.
  - **SCE-MOVIE-SOCIAL Project** - is a React web app for SCE students to discover movies and TV series. It uses the TMDB API for content and Firebase as the backend.
- **Moshal Scholarship Program** [2020 – Present]
  - The program gives students tools for personal development.
  - Participating in “Time Managing” and “English Business” courses.
  - Supports, and prepares for employment, as well as strengthens values of solidarity, integrity, responsibility, and tolerance.

## Skills

Python | C | C++ | Java
